Excel Engineering College, Anna University

2020-2024

Bachelor of Engineering, Computer Science & Engineering

PROFESSIONAL EXPERIENCE

Dabler Ltd, London, UK

2022-Present

Frontend Developer (remote)

Joined this startup during its inception and assumed responsibility for complete frontend development, overseeing the entire lifecycle of product development. I played a key role in architecting and implementing robust and scalable frontend solutions for the company's products. I'm primarily responsible for:

- Develop and maintain responsive web applications using ReactJs and TypeScript and libraries like MaterialUI, AntDesign and numerous utility packages.
- Implemented intuitive user interfaces and optimized user experiences through thoughtful design and efficient code.
- Conducted regular code reviews, identified and resolved bugs, ensured code quality and maintainability.
- Worked closely with backend developers on a daily basis to integrate frontend components seamlessly.
- Implemented scrum methodologies, leveraging Trello as the collaborative platform for effective coordination with backend and testing teams.
- Stayed updated with industry trends, emerging technologies, best practices to enhance development process.

Chzapps India, Ernakulam, Kerala

Jan 2022 – July 2022

Junior ReactJs Developer

During my tenure here as my first firm, I gained invaluable insights into the inner workings of real-world business. This experience provided me with valuable lessons on effectively engaging with clients, understanding and fulfilling their requirements and nurturing strong professional relationships. Handled the frontend development area of multiple projects and maintain them from time to time.

Freelance Web Developer

Nov 2021 – Dec 2021

Joined As my integral role in the field, I embarked on a freelancing journey as a web developer, consistently delivering exceptional frontend solutions to clients. Demonstrated expertise in responsive design and diverse technologies. Got to work on multiple projects.
