Experience

Oct 2022 - Present
Dabler Ltd | 128 City Road, Nottingham, London
Frontend Developer (Remote)

Joined this startup during its inception and assumed responsibility for full-stack frontend development, overseeing the entire lifecycle of product development. I played a key role in architecting and implementing robust and scalable frontend solutions for the company's products. Im primary responsibilities include:

- Developed and maintained responsive web applications using ReactJs and Typescript and ReactJs libraries like Material UI, Ant Design and numerous utility packages.
- Implemented intuitive user interfaces and optimized user experiences through thoughtful design and efficient code.
- Conducted regular code reviews, identified and resolved bugs, and ensured code quality and maintainability.
- Worked closely with backend developers on a daily basis to integrate frontend components seamlessly.
- Implemented Scrum methodologies, leveraging Trello as the collaborative platform for effective coordination with backend and testing teams.
- Stayed updated with industry trends, emerging technologies, and best practices to enhance development processes.

Jan 2022 - July 2022
Chzapps India | Vazhakkala, Ernakulam, Kerala
Junior ReactJs Developer Intern

During my tenure here as my first company, I gained invaluable insights into the inner workings of real-world businesses. This experience provided me with valuable lessons on effectively engaging with clients, understanding and fulfilling their requirements, and nurturing strong professional relationships. Handled the front-end development area of multiple projects and maintain them from time to time

November 2021 - Dec 2021
Freelance Web Developer

As my inaugural role in the field, I embarked on a freelancing journey as a web developer, consistently delivering exceptional frontend solutions to clients. Demonstrated expertise in responsive design and diverse technologies. Got to work on multiple projects.
